DEC 2025

STAGE 2 IS UNDERWAY!

Architect's impression

Welcome to our first newsletter

Stage 2 of our new apartments development is now underway, and we're excited to welcome you to the first of our newsletters. We hope you enjoy these regular updates - there's a lot happening on site, and each month we'll share the latest building progress and a sneak peek of what's coming up.

As a community charitable trust, we've been providing quality, affordable retirement living and care for seniors for over 50 years. Looking ahead to meet future demand, Stage 2 will introduce 21 new apartments that deliver the exceptional comfort and convenience of supported living and provide a place where you can feel right at home.

Eye-catching design

The elegant exterior design creates a welcoming first impression and flows through to the apartments, communal spaces, and into the vibrant hub of the outdoor central courtyard.

Laying the groundwork

The old apartments and Quiet Room have been carefully removed, and the site cleared. The Quiet Room's beautiful stained-glass windows and character beams will be incorporated in the new building design, providing a lasting connection with our history and identity.

Things are moving along nicely on site, with services being laid, and excavations and formwork underway for the footings and lift shafts. There may be some minor disruption from truck movements on site, and we thank you for your care in walking and driving around the area.

If you have any questions, our Project & Sales Manager, Sandra Fairhurst, is here to help. Please email her on sandrafairhurst@resthaven.org.nz
