

A regular catch up about:

AV | APARTMENTS ON VOGEL

APRIL 2026

GOING UP!

Exciting Milestones

It's been an exciting few months on site, with some big milestones. Livingstone Building and subbies have been making great progress, and it's inspiring to see the site buzzing with activity.

The foundations were poured in February. 170m³ of concrete, a stream of trucks, and a team of people bringing the project to life!

The Ground Floor & Level 1 Are Taking Shape

The ground floor tilt panels and steel have gone up fast; the precast concrete balconies for Level 1 have been lifted into place; and suddenly the building has sprung up.

Watching the cranes and ground crew carefully lift and guide the massive sections into place is impressive, and we can now see the building layout and get a sense of how it will look.

Coming Up Next

In April, the team will continue work on Level 1. The concrete pour is scheduled for mid-April, and the following week will see the precast panels installed. At times during the month there will be traffic management in place on Vogel Street - thank you everyone for your patience while this is taking place.
